Open to: [Hardware Engineer / Full-Time from 01/12/2026]

PROFESSIONAL SUMMARY

Final-year B.Tech student with hands-on project experience in IoT, embedded systems, robotics, and hardware development. Experienced in working with sensors, microcontrollers, and actuators, with practical exposure to antenna design and electromagnetic simulation during project training at DRDO–DLRL. Seeking an entry-level opportunity to contribute to engineering projects and strengthen technical skills.

TECHNICAL SKILLS

Domains: IoT, Embedded Systems, Robotics, Hardware Development
Hardware: Sensors, Microcontrollers, Actuators
Software / Tools: HFSS (antenna design and electromagnetic simulation)

PROJECTS

AgriX – Smart Grass Cutter Rover
ESP32, Embedded C++, GPS, IoT
- Developed an autonomous grass-cutting rover with GPS mapping and obstacle detection.
- Implemented automatic mowing and web-based rover monitoring.

Terra Shield X – Landmine Detection Rover
ESP32, GPS, Embedded C++, IoT
- Developed a metal-detection rover for identifying potential metallic hazards.
- Integrated GPS tracking and mapping of detected locations.

HEMS – Home Energy Management System
ESP32, IoT, Edge AI
- Designed an intelligent energy monitoring system for smart homes.
- Focused on energy optimization and automated appliance management.

INTERNSHIP EXPERIENCE

Research and Development – EDODWAJA PVT. LTD
Hyderabad, Telangana, India | MAY – 2026
- Contributed to research and development activities, supporting technical problem-solving and development tasks.
- Gained practical exposure to project development, technical research, and implementation of engineering solutions.

PROJECT TRAINEE EXPERIENCE

DRDO, DLRL | Hyderabad | Jun 2023 – Dec 2023
- Worked under the guidance of Dr. Madhavi Chandra, Scientist-E, in the Antenna Wing.
- Contributed to the development of a 5G triband patch antenna design using HFSS software.
- Gained hands-on experience in antenna design and electromagnetic simulation in a research-oriented environment.

EDUCATION

Bachelor of Technology (B.Tech), Information Technology
St. Martin's Engineering College, Hyderabad | Expected Graduation April 2027
- CGPA: [7.63 / 10]
- Relevant Coursework: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks, Software Engineering, Web Technologies, Cloud Computing.

Diploma, Electronics & Communication Engineering
SBTET Board | Teegala Krishna Reddy Engineering College | 2024 | CGPA: [8.90 / 10]
- Relevant Coursework: Electronic Devices & Circuits, Digital Electronics, Analog Communication, Digital Communication, Microprocessors & Microcontrollers, Electronic Measurements & Instrumentation, Embedded Systems.

Class X: SSC Board | Kakatiya High School | 2021 | CGPA: [10 / 10]

ACHIEVEMENTS, CERTIFICATIONS & EXTRACURRICULAR

- **Hackathon Achievement:** Secured 2nd Position in Quantanova V2 2025, a 24-hour national-level hackathon organized at St. Martin's Engineering College, Hyderabad, on July 19–20, 2025.
- **Technical Symposium:** Participated in GENOS'22 National-Level Technical Symposium and Trivia Quiz organized by JNTUH University College of Engineering Hyderabad.
